    </form>

</div>
</div>

</body>
</html>

```

3 Why we choose to implement our UML Objects in this way in our Web App (Our HTML PAGE)

Assignment 3 file is been uploaded to GitHub for refrence

We Choose to provide Project manager with the list of projects in Dropdown list so he can select project and choose activities to perform such as Create Time Management Plan, Create Cost Management Plan, Create Quality Management Plan.

Based on which Manager fill the form to create Plans for Project.
